

HABERLEŞMEDE ÇOK KULLANILAN BAZI KISALTMALAR

ADJ	Adjacent DPC link set	ISDN	Integrated Services Digital Network
ADL	Asynchronous Data link	ISUP	ISDN User Part
ADM	Add-Drop Multiplexer	ITU	International Telecommunication Union
ADSL	Asynchronous Digital Subscriber Line	LAMA	Local Automatic Message Account
AMA	Automatic Message Account	LAN	Local Area Network
AMD	Advanced Micro Devices	LKS	Link Set Table
ANSI	American National Standards of Institute	LRS	Link Set Route Set Table
ATDM	Asynchronous Time Division Multiplexer	MML	Man Machine Language
ATM	Asynchronous Transfer Mode	MN	Mobile Network
BHCA	Busy Hour Call Attempt	MTP	Message Transfer Part
B-ISDN	Broadband ISDN	N-ISDN	Narrowband ISDN
CAMA	Centralized Automatic Message Account	O&M	Operation & Maintenance
CAS	Channel Associated Signalling	OFS	Old Function Split
CCS	Common Channel Signalling	OLTU	Optical Line Terminal Unit
CCS7	Common Channel Signalling No=7	OMC	Operation and Maintenance Center
CMI	Code Mark Invention	OMS	Operation and Maintenance Station
COFI	Codec Filter	OPC	Originating Point Code
CP	Call Processing	OPT	Originating Point Translation Table
CSMA	Carrier Sense Multiple Access	OS	Operating System
DAA	Data Access Arrangement	PABX	Private Automatic Branch Exchanges
DCME	Digital Circuit Multiplex Equipment	PAM	Pulse Amplitude Modulation
DDF	Digital Distribution Frame	PBX	Private Branch Exchange
DECT	Digital European Cordless Telecommunication	PCM	Pulse Code Modulation
DPC	Destination Code Point	PDC	Primary Digital Carrier
DSSI	Digital Subscriber Signalling System 1	PDM	Pulse Duration Modulation
DTMF	Dial Tone Multi Frequency	PFM	Pulse Frequency Modulation
DWDM	Dense Wavelength Division Multiplexer	PLL	Permanent Logic Link
ETSI	European Telecommunications Standards Institute	PLMN	Public Land Mobile Network
FTTC	Fiber To The Curb/Curve	PPM	Pulse Position Mode
FTTCa	Fiber To The Cabinet	PSTN	Public Switched Telephone Network
FTTB	Fiber To The Building	PTM	Pulse Time Modulation
FTTF	Fiber To The Home	RAT	Route Address Table
FTTH	Fiber To The Floor	RDP	Route Set DPC Table
FTTO	Fiber To The Office	RDT	Route Description Table
FTTR	Fiber To The Remote Unit	SDH	Synchronous Digital Hierarchy
FTTZ	Fiber To The Zone	SLP	Subscriber Line Port
FITL	Fiber In The Loop	SSP	Service Switching Point
GSM	Global System for Mobile Telecommunication	STP	Signalling Transfer Point
HDB	High Density Bipolar	TCP/IP	Transmission Control Protocol/Internet Protocol
HDLC	High Level Data Link Control	TMN	Telecommunication Management Network
HDSL	High bit rate Digital Subscriber Line	UPT	User Part Translation Table
I/O	Input Output	WAP	Wireless Application Protocol
IN	Intelligent Network	WLL	Wireless Local Loop
IOP	Input Output Processor	XSP	CAS & CCS Signalling Processor
